

TREC's Spring 2016 Seminar Series

Date	Speaker	Topic	Time	Place
2/25/2016	Dr. Pamela D. Roberts Professor (Plant Pathology) University of Florida, SWFREC Immokalee, FL	The Continuing Challenge of Late Blight caused by <i>Phytophthora infestans</i> on tomato and potato	3:00 PM	Admin Building 8252
3/10/2016	Dr. Samira H. Daroub Professor University of Florida, EREC Belle Glade, FL	Best Management Practices Program in the Everglades Agricultural Area: 20 Year Success Story	3:00 PM	Admin Building 8252
4/4/2016	Dr. Juan P. Alvez University of Vermont, Center for Sustainable Agriculture	“Agroecology and the Paths Towards Sustainable Agricultural Ecosystems”	11:00 AM	Admin Building 8252
4/6/2016	Dr. Lindsay Brin Agriculture and Agri-Canada, Potato Research Center	“From Atoms to Ecosystems: Climate change, Nitrogen Cycling and Sustainability in Agroecosystems”	11:00 AM	Admin Building 8252
4/13/2016	Dr. Luis F. Pérez-Vicente Plant Protection Research Institute (Instituto de Investigaciones de Sanidad Vegetal; INISAV) of Ministry of Agriculture	“The Plant Protection Service in Cuba: Organization, Infrastructure, Research Institutions and Higher Education Centers”	3:00 PM	Admin Building 8252
4/21/2016	Dr. Mauricio Eduardo Arias Kennedy School of Government, Harvard University	“Sustainable Watershed Management in a Changing World”	9:00 AM	Admin Building 8252

4/26/2016	Dr. Tania Kim University of Wisconsin-Madison	“Location Matters: How Spatial Context and Scale Influence Consumer-Resource Interactions”	9:00 AM	Admin Building 8252
4/27/2016	Dr. Di Tian Princeton University	“Hydroclimate Modeling and Forecasting Under Global Change”	9:00 AM	Admin Building 8252
5/3/2016	Dr. Geoffrey Meru Tennessee State University	“Breeding For Resistance to Fusarium Wilt & Enhanced Seed Nutrition in Watermelon”	10:00 AM	Admin Building 8252
5/4/2016	Dr. Younggu Her Texas A&M University	“Hydrological Process Modeling to Understand Impacts of Climate Change and Sea Level Rise on Agriculture and Natural Ecosystem”	9:00 AM	Admin Building 8252
5/5/2016	Dr. Alan H. Chambers PepsiCo R&D	“Plant Breeding at TREC: Energizing Endless Possibilities”	10:00 AM	Admin Building 8252
5/6/2016	Dr. Luis F. Pérez-Vicente Plant Protection Research Institute (Instituto de Investigaciones de Sanidad Vegetal; INISAV) of Ministry of Agriculture	“Avocado in Cuba: History, hectares in production, cultivars, technology, pests and diseases”	11:00 AM	Teaching Room Building 8260
5/9/2016	Dr. Ki-Seung Kim University of Missouri	“Molecular Approaches to Crop Breeding Programs”	10:00 AM	Admin Building 8252
5/16/2016	Dr. Manjul Dutt Citrus Research & Educational Center - University of Florida	“Citrus improvement utilizing biotechnology facilitated conventional breeding and genetic engineering”	10:00 AM	Admin Building 8252

5/25/2016	Dr. Fatma Kaplan Kaplan Schiller Research, LLC	"Chemical Signaling in Nematodes and Practical Applications"	10:30 AM	Admin Building 8252
6/1/2016	Dr. Elias Bassil University of California at Davis	"Why Does Cellular Ion Homeostasis Matter in Horticulture and What Can We Learn From the Cell that is Relevant for the Field?"	10:30 AM	Admin Building 8252
6/6/2016	Dr. Luis Morales University of Helsinki	"Stress Acclimation in Plants: Unraveling Molecular and Physiological Mechanisms Relevant to Crop Production"	10:30 AM	Admin Building 8252
6/9/2016	Dr. Virginia R. Sykes University of Tennessee	"Bigger, Better, Faster: Improving Breeding Efficiency for Yield and Quality Traits in Perennial Crops"	10:00 AM	Admin Building 8252
